Features:

ProSorbent™ Haz-Mat yellow absorbent pad that is designed to absorb oil and water base hazardous liquids, such as pesticides, solvents, chemicals, acids and caustics. The yellow color is used to alert personnel that a hazardous material has been recovered and caution and special handling will be required.

- Specially bonded material to give added strength for tough jobs.
- Absorbs all forms of liquid.
- The yellow color alerts responders and disposal personnel of the special purpose.
- ProSorbents™ Fiber technology is specifically designed to handle demanding tasks and large volume cleanups.
- Pads are ideal for catching drips and soaking up spills.
- Flame-resistant material won't burn immediately like cellulose absorbents. ProSorbent™ oil only pads melts when exposed to high heat while on the job.

Regulations and Compliance

29 CFR 1910.22 (a)(2)	“The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained and false floors, platforms, mats, or other dry standing places should be provided where practicable.”
