Features:

- **Can handle Aggressive liquids**
- **Land Fill Safe**
- **Used to broadcast greater coverage.**
- **Used to quickly absorb hydrocarbon spills.**
- **An All natural product.**

Regulations and Compliance

40 CFR 112.7	SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.
40 CFR 122.26	When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.
